

AEXS

AI Executive Suite

The Operating System for the AI-Augmented Executive

Seeking \$1.5M | Mc, Founder & CEO | contact@aexs.ai

LAYER 1

AI Chief of Staff

Operations Intelligence

LAYER 2

AI Governance Engine

Compliance & Certification

LAYER 3

Decision Intelligence

Strategy & Scenario Modeling

EXECUTIVE MEMORY GRAPH — Unified Intelligence Layer

Executives Are Flying Blind. **At Scale.**

The executives managing trillions in enterprise value have LESS AI support than a junior marketing hire.

73%

of C-suite leaders report
daily decision fatigue

\$3T

lost annually from
poor executive decisions

40+

national AI regulations
now enforceable

12%

Fortune 500 CEOs using
AI in core workflow today

The EU AI Act is enforceable NOW.

Organizations without AI governance infrastructure face fines up to 3% of global annual turnover. Most have nothing.

Three Crises. Zero Unified Solutions.

OPERATIONS CRISIS

AI Chief of Staff Gap

- 73% of execs report decision fatigue
- Hours lost daily to email triage
- No synthesis — only reports & noise
- Calendar chaos kills strategic focus
- Knowledge walks out the door daily

COMPLIANCE EMERGENCY

AI Governance Gap

- EU AI Act now enforceable — fines up to 3% revenue
- 40+ national AI frameworks active globally
- Most enterprises: ZERO compliance infra
- Board liability for AI governance failures
- No certification path exists at exec level

STRATEGY VACUUM

Decision Intelligence Gap

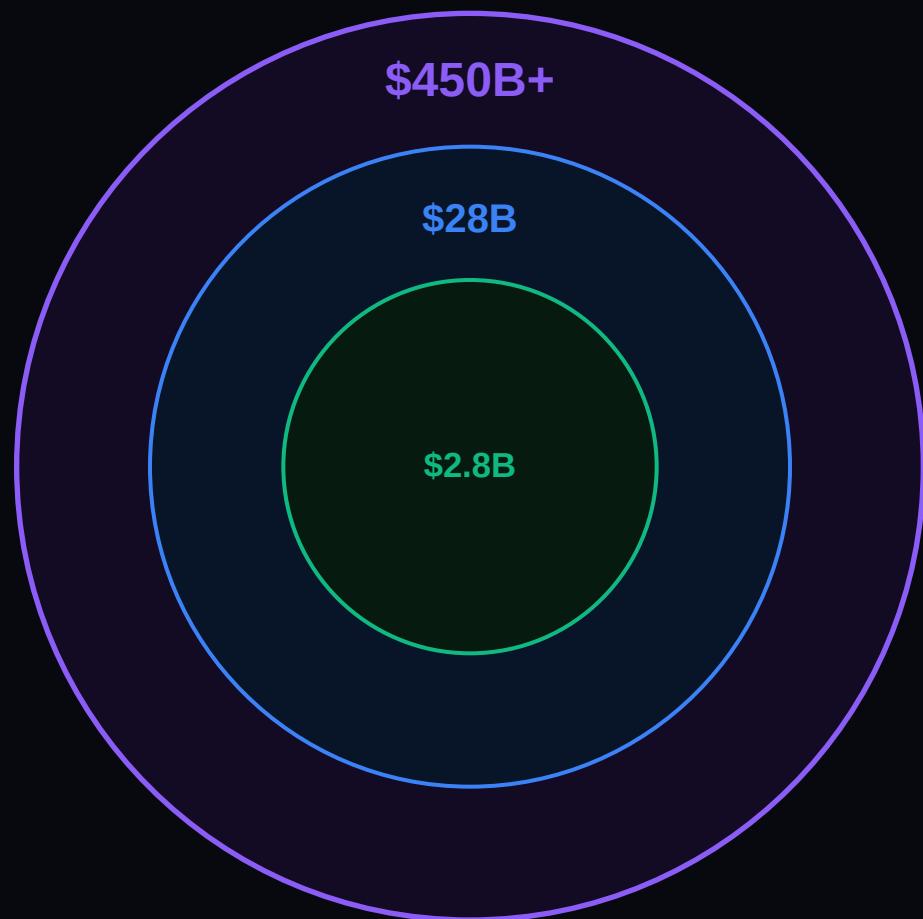

- Gut-driven decisions in AI-powered markets
- No structured scenario modeling at exec level
- Competitor signals invisible in real time
- Decision outcomes never tracked or measured
- No compounding institutional knowledge

No single product addresses all three.

Point solutions exist for each layer — but they don't talk to each other. AEXS is the unification.

A \$450B Category Waiting to Be Created

Three-Layer Market Entry

● \$450B+

Total Addressable Market

Global AI productivity & enterprise software. Growing 38% CAGR.

● \$28B

Serviceable Addressable Market

C-suite, VP-level, and board-facing executive tools globally.

● \$2.8B

Serviceable Obtainable Market

AI governance + executive intelligence. AEXS 5-year target.

Category Creation Moment:

Whoever owns executive AI first, owns it for a decade. The window is 2026.

One Platform. Three Layers. Zero Compromise.

AEXS is not a feature bundle — it is an integrated intelligence architecture sharing a single AI reasoning engine.

LAYER 1 | OPERATIONS

AI Chief of Staff

- 7AM daily executive brief
- Email triage & auto-response drafts
- Calendar conflict resolution
- Meeting transcription + action items
- Communication style learning

2-3 hrs saved

per executive daily

LAYER 2 | COMPLIANCE

AI Governance Engine

- EU AI Act + 40+ frameworks monitored
- Real-time bias detection & alerting
- AEXS Certified public badge
- Board-ready audit reports in 48h
- Regulatory change tracking

EUR 35M+

fine exposure eliminated

LAYER 3 | STRATEGY

Decision Intelligence

- Scenario modeling: 3-path analysis
- Live competitor signal monitoring
- 30 / 60 / 90-day outcome tracking
- Decision ROI compounding record
- Risk factor probability scoring

3x better

decision outcomes vs gut

EXECUTIVE MEMORY GRAPH

Proprietary unified knowledge layer. All modules share context. The platform compounds with every use.

Communication style | Decision history | Key relationships | Regulatory profile | Risk patterns

The AI Chief of Staff

Every executive deserves a brilliant, tireless Chief of Staff. Now they have one.

6:55 AM

Context Sync

Platform pulls emails, calendar, news, competitor signals overnight

7:00 AM

Brief Delivered

90-second audio + text brief. Top 3 priorities. Blockers flagged.

9:30 AM

Meeting Prep

Auto-generated agenda, attendee context, open action items surfaced

2:15 PM

Decision Trigger

Unresolved items escalated to Decision Intelligence for scenario modeling

5:00 PM

EOD Sync

Follow-ups dispatched, tomorrow pre-loaded, memory graph updated

Executive Value Delivered

2-3 hrs

saved per executive per day

87%

reduction in missed follow-ups

40%

faster decision cycle time

Day 1

immediate ROI, zero ramp time

AI Governance Engine

REGULATORY REALITY: EU AI Act is NOW enforceable. Maximum fine: 3% of global annual turnover or EUR 15M — whichever is higher.

Monitor

Real-Time Surveillance

- EU AI Act + 40+ national frameworks
- Automated bias detection on all AI outputs
- Risk classification of every AI system
- Continuous policy change tracking
- Incident detection & escalation

Certify

AEXS Certified Credential

- Public, verifiable compliance badge
- Board-ready audit reports in 48 hours
- Third-party attestation pathway
- Executive-level accountability trail
- Investor & regulator confidence signal

Report

Board-Level Transparency

- One-click regulatory submission packages
- Executive dashboard for board meetings
- Real-time compliance score dashboard
- Remediation workflow management
- Historical audit trail preservation

Non-compliance exposure: Up to EUR 35M per violation. AEXS eliminates this liability — and turns compliance into a competitive signal.

Decision Intelligence

Every major decision modeled. Every outcome tracked. Every insight compounded.

Decision ROI Metrics

3x

better decision outcomes
vs gut-driven approaches

\$2.1M

average annual cost
of one poor C-suite decision

+130%

NRR target — execs
add seats as value compounds

The Compounding Flywheel: Every tracked decision makes the model smarter. AEXS becomes more valuable — and harder to leave — with every use.

The Executive Memory Graph

A proprietary knowledge accumulation layer no competitor can replicate without years of customer data.

Why No One Can Copy This

- Proprietary Data Layer**
No competitor can buy or build this. It accumulates only through usage by real executives over real decisions.
- Deep Embedding**
The longer AEXS is used, the more indispensable it becomes. Churn requires wiping institutional memory.
- Cross-Module Synergy**
Insights from governance inform decisions. Decisions update the brief. Siloed tools can never replicate this.
- Exponential Switching Costs**
Leaving AEXS means starting over. Every new competitor starts at zero. AEXS customers compound forward.

Expected NRR: 130%+

Built-in expansion. The more execs use it, the more execs in the org want it. Seats expand by design.

Three Forces. One Window. 2026.

Regulatory Inflection

01

FORCE 1: ENFORCEMENT IS LIVE

- EU AI Act: fully enforceable NOW
- 40+ national frameworks active globally
- Board liability exposure is real and rising
- Fines up to 3% global revenue imminent
- Most enterprises have zero compliance infra
- First-mover certification = durable moat

AI Adoption Wave

02

FORCE 2: THE INFLECTION IS THIS YEAR

- Only 12% of Fortune 500 CEOs use AI daily
- Analyst consensus: 60%+ by end of 2027
- Exec-level AI tools earn the deepest loyalty
- Platform that embeds first wins forever
- Data advantage grows with every interaction
- Late movers pay 10x to displace incumbents

Category Vacuum

03

FORCE 3: THE GAP IS CLOSING FAST

- Monday.com = workflow. Not executive intelligence.
- OneTrust = GRC. Not AI-native at exec level.
- Gartner = advisory. Not real-time or automated.
- No product unifies all three functions today.
- First unified platform wins category ownership.
- This gap closes in 18 months. Not 5 years.

The window is not permanent.

By 2027, well-funded incumbents will have entered. The category leader is decided in the next 18 months.

AEXS Has No Direct Competitor

Point of view: AEXS is the only AI-native executive suite that does not — until AEXS.

Full financial model with burn schedule and gross margin bridge available in complete investor package.

Land With Compliance. Expand With Intelligence.

BEACHHEAD MARKET

Series B/C companies (100-1000 employees) with active EU AI Act exposure and a CEO/CFO under regulatory pressure

PHASE 1: Q2-Q3 2026

Founder-Led Direct Sales

- Leverage 10 existing executive relationships
- Target: 20 beta users at \$0 / \$1K pilot pricing
- Goal: Validate NPS, usage, and willingness to pay
- Identify 3 lighthouse enterprise customer logos

\$28K

Blended ACV

\$12K

Target CAC

PHASE 2: Q4 2026

Channel & Compliance Partner Program

- Partner with EU AI Act advisory firms & law firms
- Co-sell with Big 4 governance & risk consultancies
- Join EU AI Office innovation programs
- Target: 100 paying customers, \$1M ARR

2.3x

LTV/CAC Ratio (Y1)

18 mo

CAC Payback Period

PHASE 3: 2027+

Product-Led Growth + Enterprise

- PLG motion: exec invites team members
- Land-and-expand: average from 3 to 12 seats per org
- Inbound flywheel via AEXS Certified brand recognition
- Target: 500 customers, \$5M+ ARR

130%+

Net Revenue Retention

Foundation Built. Momentum Loading.

10 C-Suite Interviews Completed

VALIDATED

Direct validation from CEOs, CFOs, and CHROs across EU and North American enterprises.

Interactive Investor Showcase Live

LIVE NOW

Full pitch narrative, product architecture, and 36-step roadmap live at aexs.ai — no login required.

Technical Architecture Validated

COMPLETE

FastAPI + async AI pipeline, Executive Memory Graph schema, and multi-tenant infra blueprint complete.

Regulatory Framework Mapped

COMPLETE

EU AI Act + 40+ national frameworks fully mapped. Compliance engine architecture ready for build.

What This Round Unlocks

Q2 2026

20 beta users onboarded

AI Chief of Staff MVP

Q2 2026

\$15K MRR first revenue

Pricing model validated

Q3 2026

Governance Engine beta

EU AI Act module live

Q4 2026

100 customers signed

\$1M ARR milestone

Q2 2027

Series A pipeline open

Enterprise sales motion

Signal from the market is clear:

Every executive interviewed said the same thing — "I need this now." We are ready to build.

Built by a Technical Founder Who Moves Fast

Mc

Founder & CEO, AEXS

- Technical founder with deep enterprise AI/ML background
- Enterprise RFID integration at Novomatic AG (Vienna, AT)
- AI music studio founder — content creation + distribution
- Builder-first: ships code at the speed of a market window
- Operating from Vienna — EU regulatory proximity advantage

The founder fit:
EU-based. AI-native. Regulatory-adjacent. Technical depth with commercial clarity.

Team Build Plan (This Round)

- 

CTO / Lead AI Engineer
Q3 2026
Core platform architect
- 

Head of Compliance (EU AI Act)
Q3 2026
Governance engine lead
- 

Enterprise Account Executive
Q4 2026
First revenue closer
- 

AI / ML Engineer x2
Q1 2027
Product velocity scale

VP Sales
Q2 2027
Series A GTM engine

Advisory Network — Now Forming
Seeking advisors with: C-suite SaaS sales experience, EU regulatory expertise, and enterprise AI deployment background.
First three strategic advisors to be announced with close of seed round.

\$1.5M Seed Round

Building the first AI-native operating system for the executive layer. The window is open — briefly.

**\$750K****Product & Engineering**

Core platform build: AI Chief of Staff MVP, Governance Engine, Decision Intelligence

**\$375K****Sales & GTM**

Enterprise sales motion, channel partnerships, AEXS Certified brand launch

**\$225K****Operations & Legal**

EU AI Act compliance infrastructure, legal entity, IP protection, HR

**\$150K****Working Capital**

Runway buffer, tools, infrastructure, contingency

This Round Unlocks:

20 beta users

AI Chief of Staff MVP

\$15K MRR

First revenue validation

Governance Engine beta

EU AI Act compliance module live

100 paying customers
